Sources: PRI Assessment Report 2020 Ostrum Asset Management. PRI assigns one of six performance bands (from E to A+) for each applicable module. A+ is the highest score possible whereas E is the lowest.

These scores can be compared to their respective module's median, allowing a relative comparison versus the peer group. The "Strategy and Governance" module is applicable to all signatories. Other modules are applicable when they represent 10% or more of the AUM of a signatory.

Please read more about UNPRI assessment methodology: <https://www.unpri.org/signatories/about-pri-assessment>.

*SSA: Supranational organisations, Sovereign states/governments, Government agencies, Sub-national.

Any reference to a ranking, a rating or an award provides no guarantee for future performance and is not constant over time.
